## Pediatric Dosing and Fluid Management

### PHARMACY ONESOURCE SOFTWARE ORDERS ACCURATE PEDIATRIC DRIPS BASED UPON STANDARDIZED CONCENTRATIONS AND FLUID LOAD.

Pharmacy OneSource's pediatric dosing tool eliminates the need for "rule of 6" dosing. One-button optimization of complicated drip order sets minimizes fluids and maximizes dose based on preset algorithms developed by the University of Maryland.

#### Features:

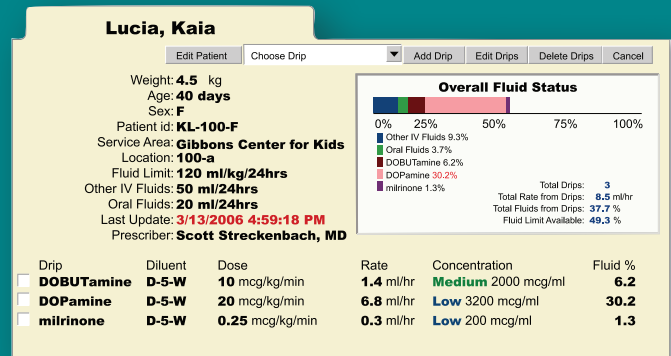

- Pediatric drip order optimized
- Fast and easy to use and to learn
- Fully customizable
- ADT patient interface available
- Patent-pending technology developed at the University of Maryland
- Drip orders driven by "encyclopedia" of standardized concentrations
- Customizable, pre-set concentration sets by drug, diluent and unit
- Speedy, yet accurate, drip order set creation
- Real time feedback of fluid load as order set is created
- Easy to read, ready-to-print order form produced
- Automatic generation of titration list for each drip

#### BENEFITS :

- Optimizes accurate pediatric drip orders
- Increases safety of pediatric drip orders
- Eliminates need for "rule of 6"
- Simplifies historical auditing of concentration changes
- Provides confidence from use of fully referenced, patent-pending technology
- Assists with standardization of quality of care

**Additional Features:**

- Double sign off on concentration alterations
- Alert with notice and double sign off on out of normal dose range prescribing (customized for each customer)
- Full audit history of changes and drip orders
- Full service set-up and ongoing support

*Patient card shows drip concentrations and overall fluid load*

*"We found that 40.5% of our handwritten rule-of-six orders were missing important elements such as the patient's weight, dose and rate, and 6.5% contained calculation errors. The computerized orders were error-free, complete and legible."*

– Elora Hilmas, Pharm.D.
