

# Schedule OneSource™

## Online Pharmacy Staff Scheduling

### SAVE TIME AND DECREASE STRESS WITH SCHEDULE ONESOURCE,™ MAKING STAFF SCHEDULING FASTER AND MORE TRANSPARENT.

Now you can generate and manage staff schedules quickly and easily, with real-time data and integrated communication. Schedule OneSource™ helps you better utilize staff time and key competencies by streamlining your scheduling process.

#### Administrator Features:

- At-a-glance access for the majority of functionality, alerts and information on the Welcome screen
- Single screen tabbed browsing with multiple schedule views
- Fully-automated location-specific, skill, preference, and shift scheduling, with all staff on one schedule
- Smart scheduling provides drop-down menus that present available and qualified staff for filling open shifts
- Touchscreen compatibility, optimized for use on mobile devices like smartphones and tablets
- Email notifications and alerts through an integrated communication platform, with full documentation
- Schedule forecasting builds schedules for up to two years in advance with known future events
- Reports on historical data

#### BENEFITS :

- **Save Time:** Single screen tabbed browsing with multiple schedule views makes it easy and fast to generate and revise schedules
- **Easily Fill Shifts:** Drop-down menus directly present available and qualified staff for filling any shift
- **Increase Transparency:** Integrated communication platform enables decision-making based on real-time data, alerts, email notifications and time-stamped documentation
- **Improve Team Morale:** Empower and increase direct staff involvement in scheduling, while keeping process transparent
- **Plan Further Ahead:** Automatically builds future schedules for up to two years in advance with known future events, enabling advanced planning and earlier confirmation with your team

## Employee Features:

- Web-based access with single sign-on requiring no hardware or software installation
- Online employee access to submit time-off requests, view schedules, confirm or communicate shift changes, anywhere, anytime with a computer, smartphone or tablet
- Paperless leave requests handled by the system as employees log on, view schedules and make requests
- Fully integrated email notifications to enable decision-making based on real-time data
