

## KLAS Ranks Sentri7 2015/2016 Category Leader for Clinical Decision Support-Surveillance

Sentri7 is deemed the market-leading Clinical Decision Support-Surveillance solution out-performing competitive products by Premier Theradoc, CareFusion and Truven Health Micromedex.

### Sentri7 awarded top honors for exceptional:

- Sales and Contracting
- Functionality and Upgrades
- General Satisfaction
- Implementation and Training
- Service and Support

85% rated moderate to significant impact on clinical outcomes

### Significantly Impacts Outcomes and Patient Care

Customers state Sentri7 has a moderate to significant impact on clinical outcomes including decreased length of stay, antibiotic usage, medication costs and adverse reactions.

“Sentri7 has the flexibility to pull all the clinical data we need to make day-to-day decisions about patients” — *Director, May 2015*

### Highly Customizable and Easy to Use

An easily customizable, robust and flexible system Sentri7 requires little user training and minimal IT involvement.

“The customization is what we have found to be the most beneficial to our team. It definitely helps our workflow and helps us achieve more with the time we are given.” — *Analyst, October 2015*

### EMR-Based Surveillance

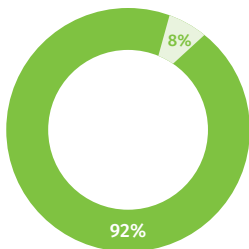

KLAS interviewed EMR customers on current EMR-based surveillance. Allscripts, Cerner and Epic customers reported having few prebuilt rules and a very intensive customization process requiring IT resources and extensive training.

“Sentri7 is an excellent system. It is flexible, and we can tweak it according to our needs. We don’t have to wait for somebody to write our rules for us because we can make our own rules.”

— *Director, November 2015*
